

PERSONAL SUMMARY

Technical Support Engineer and IT professional with 3+ years experience in troubleshooting software, hardware, and network issues, combined with a strong foundation in web development and cloud technologies. Skilled in debugging applications, supporting end users, and collaborating with cross-functional teams to resolve complex technical problems. Experienced in using AI tools and Large Language Models (LLMs) to improve productivity, automate workflows, and enhance support operations. Passionate about delivering efficient, scalable, and user-focused technical solutions.

EXPERIENCE

Freelance Web Developer - December 2025 – Currently

- Designed engaging front-end interfaces and developed robust backend systems for dynamic functionalities including user authentication and content management.
- Provided post-deployment support and issue resolution for clients and debugged application errors, troubleshooting and resolving performance and usability issues and optimized performance for better user experience.
- Ensured 100% client satisfaction through timely project delivery and ongoing support.

IT Support - January 2023 – November 2025

Mapsight Services Limited

- Diagnosed and resolved complex hardware, software, and network issues, ensuring minimal downtime and improved user experience.
- Configured, maintained, and troubleshoot IT systems, proactively identifying and resolving potential failures.
- Performed routine system administration: user account provisioning, password resets, and access updates, achieving 100% compliance with internal IT policies.
- Documented recurring technical issues and solutions, improving response time and support efficiency.

Graphic Designer (Part-Time Remote) - September 2022 – November 2023

Cerub Insurance and Investment Agency

- Designed digital and print materials using Adobe Creative Suite.
- Collaborated with marketing team to deliver user-focused visual content.

Industrial Attachment - June 2022 – September 2022

Gusii Water and Sanitation Company

- Assisted in technical support and maintenance of computer systems and networks.
- Supported software implementation and maintenance, assisted in maintaining the company's IT infrastructure, ensuring system uptime improved.
- Troubleshoot and resolved technical issues to ensure smooth IT operations.

EDUCATION

2023	Bachelor of Science in Computer Science Kisii University
2018	Diploma in Information Technology Kisii University
2014	Kenya Certificate of Secondary Education (KCSE) Nyanchwa High School
2010	Kenya Certificate of Primary Education (KCPE) Gilgil Hills Academy

SKILLS

Technical Skills & Competencies

- IT Service Desk & System Administration: Incident logging, escalation, reporting, user account provisioning, password resets, access control, IT asset management, inventory tracking.
- IT Support & Maintenance: Hardware and software installation, configuration, troubleshooting, IT infrastructure setup, and technical documentation.
- Networking: LAN, WLAN, VPN configuration & troubleshooting
- Cybersecurity: Security awareness, risk identification, and basic threat mitigation practices.
- Cloud Platforms: Microsoft Azure, AWS (basic), GCP (basic).
- Productivity & Collaboration Tools: Microsoft 365, Microsoft Office Suite, email clients, GitHub.
- Web & Software Development: HTML, CSS, React.js, Bootstrap, RESTful APIs, PHP, Django
- Graphic & Creative Design: Adobe Photoshop, Illustrator, InDesign, After Effects.
- Search Engine Optimization
- Large Language Models (LLMs) usage (ChatGPT, Grok, Claude, Copilot)
- Prompt engineering for debugging and automation and AI-assisted development (GitHub Copilot, Antigravity)
- Workflow automation using AI tools

Soft Skills

- Strong problem-solving and analytical thinking
- Effective communication and active listening
- Customer service and client support
- Teamwork and cross-functional collaboration
- Adaptability and continuous learning
- Time management and multitasking
- Attention to detail and accuracy
- Critical thinking and decision-making

CERTIFICATION

Oct 2025 – Nov 2025	EC-Council Essentials: Ethical Hacking Essentials (EHE) • Cyber Shujaa
April 2025 – June 2025	Microsoft ADC Cloud Security Specialist • Cyber Shujaa & Microsoft ADC
May 2025 – May 2025	The Cyber Security Threat Landscape • LinkedIn Learning. (View Certificate)
April 2025 – May 2025	Microsoft Certified: Security, Compliance, and Identity Fundamentals • Microsoft. (View Certificate)
Sep 2025 - Sep 2025	SEO Certified • Hubspot Academy (View Certificate)
Nov 2025 - Dec 2025	Full stack Web Development • eMobilis Technology Institute (Completed, Awaiting certification)

PROJECTS & PRACTICAL LABS

- **Azure Network Security Projects:** Configured and secured NSGs, Service Endpoints, and Storage solutions under the Microsoft ADC Programme.
- **Technical Support & Automation Projects:** Built AI-powered automation scripts and workflows using LLMs (ChatGPT, GitHub Copilot) to streamline troubleshooting, debugging, documentation, and bug reproduction for web applications, boosting development efficiency and reducing repeated support issues.
- **Student Performance Management System (Academic Project):** Designed and developed an automated system for student marks entry, processing, and report generation, with data validation, grading logic, and performance analysis to reduce errors, boost efficiency, and ensure accuracy via thorough debugging and testing.
- **Charity Awoke Foundation Website:** Developed and launched an online platform to raise awareness and funds for social causes. <https://charityawokefoundation.org/>
