

PERSONAL SUMMARY

Cybersecurity and IT professional with hands-on experience in IT support, cloud security, system administration, and web application security. Microsoft Certified in Security, Compliance, and Identity Fundamentals (SC-900) with additional training in Azure Cloud Security and Ethical Hacking Essentials. Experienced in troubleshooting enterprise IT systems, Active Directory administration, network troubleshooting, identity and access management, and implementing security best practices. Familiar with Security Operations Center (SOC) processes including security monitoring, vulnerability management, incident response, threat analysis, log investigation, and endpoint security. Passionate about protecting organizational assets and continuously developing skills in cyber defense, SIEM technologies, and threat detection.

EXPERIENCE

Freelance Web Developer - December 2023 – Currently

- Developed secure web applications by implementing authentication, authorization, HTTPS, and role-based access control (RBAC).
- Applied secure coding practices to identify and remediate common application vulnerabilities and improve overall system security.
- Deployed and maintained cloud-hosted applications while implementing security best practices for access management and credential protection.
- Investigated and resolved application, security, and performance issues through systematic troubleshooting and root cause analysis.

IT Support - September 2022 – December 2023

Mapsight Services Limited

- Managed user accounts, password resets, and access permissions, gaining hands-on experience with Active Directory and identity management.
- Diagnosed and resolved hardware, software, and network incidents involving TCP/IP, DNS, DHCP, VPN, and Windows environments.
- Performed system maintenance, patching, and endpoint support to improve system security, availability, and reliability.
- Documented incidents, technical resolutions, and recurring issues to support efficient incident response and knowledge management.

Industrial Attachment - June 2022 – September 2022

Gusii Water and Sanitation Company

- Provided technical support for end users by troubleshooting hardware, software, and network-related issues.
- Assisted in maintaining computer systems and network infrastructure to ensure secure and reliable operations.
- Supported software installation, system configuration, and routine maintenance while following organizational IT policies.
- Documented technical issues and resolutions, contributing to effective IT support and operational continuity.

EDUCATION

2023

Bachelor of Science in Computer Science
Kisii University

SKILLS

Technical Skills & Competencies

- Security Operations Center Fundamentals, Security Monitoring, Incident Detection & Response
- Threat Analysis, Log Analysis, Vulnerability Assessment & Risk Management
- Endpoint Security, Security Hardening & Security Best Practices
- Identity & Access Management (IAM), Role-Based Access Control (RBAC)
- Microsoft Azure Security, Microsoft Defender for Cloud, Microsoft Sentinel (SIEM)
- Azure Network Security Groups (NSGs), Azure Firewall, Azure Key Vault
- Azure RBAC, Azure Storage Security, Azure Container Registry, Azure Kubernetes Service (AKS)
- Windows Administration, Active Directory, Microsoft 365 Administration
- User Account Provisioning, Access Management, System Configuration & Patch Management
- TCP/IP, DNS, DHCP, VPN, LAN/WAN, Network Troubleshooting & Firewall Fundamentals
- Programming & Technical Tools
- Python, JavaScript, PHP, SQL
- Django, React.js, REST APIs
- HTML5, CSS3, Bootstrap
- Git & GitHub, Linux Fundamentals, Visual Studio Code

Soft Skills

- Strong problem-solving and analytical thinking
- Effective communication and active listening
- Customer service and client support
- Teamwork and cross-functional collaboration
- Self motivated
- Adaptability and continuous learning
- Time management and multitasking
- Attention to detail and accuracy
- Critical thinking and decision-making

CERTIFICATION

Oct 2025 – Nov 2025	EC-Council Essentials: Ethical Hacking Essentials (EHE) • Cyber Shujaa
April 2025 – June 2025	Microsoft ADC Cloud Security Specialist • Cyber Shujaa & Microsoft ADC
May 2025 – May 2025	The Cyber Security Threat Landscape • LinkedIn Learning. (View Certificate)
April 2025 – May 2025	Microsoft Certified: Security, Compliance, and Identity Fundamentals • Microsoft. (View Certificate)
Nov 2025 - Dec 2025	Full stack Web Development • eMobilis Technology Institute (Completed, Awaiting certification)
May 2026 - July 2026	Artificial Intelligence Training • The ICT Authority, Kenya in collaboration with Pathways Technologies

PROJECTS & PRACTICAL LABS

- **Azure Network Security Projects:** Configured and secured NSGs, Service Endpoints, and Storage solutions under the Microsoft ADC Programme.
- **Azure Cloud Security Labs:** Configured and secured Azure resources using Network Security Groups (NSGs), Azure Firewall, Role-Based Access Control (RBAC), and Azure Key Vault.
- **Security Operations & Threat Detection Labs:** Conducted hands-on security monitoring and threat analysis using Microsoft Sentinel and Microsoft Defender for Cloud. Investigated simulated security events, analyzed logs, and practiced incident detection and response in a lab environment.
